

This technical drawing is an exploded view of a mechanical assembly, likely a wristwatch. The components are arranged vertically to show their relative positions and assembly sequence. At the top is a circular bezel with a scale marked from 0 to 20. Below it is a ring with a series of small, raised, diamond-shaped elements. The main body of the watch is shown in the center, with a case that has 'STAINLESS STEEL' inscribed on its side. The case is open, revealing the internal movement. The bottom part of the assembly is the case back, which has 'SWISS MADE' and '2220' inscribed on it. To the right of the main assembly, a series of small components are shown in an exploded view, including a crown, a pusher, a spring, and a small screw.
